

VISUAL FIELDS EXAMINATION

A new highly sophisticated computerized instrument now allows us to provide a more thorough medical analysis of your eyes. Our new **HUMPHREY VISUAL FIELD ANALYZER** electronically measures retinal function and sensitivity to light. This measurement can assist us in the early detection of many disorders, including brain tumors, glaucoma, diabetic retinopathy, and retinal detachments.

It is strongly recommended that all of our patients receive the screening version of this exam. It is especially important for people who have:

- 1) **Family history of glaucoma**
- 2) **Headaches**
- 3) **See spots or flashes of light**
- 4) **A history of Diabetes**
- 5) **A history of high blood pressure**
- 6) **Circulatory problems**
- 7) **A strong eyeglass prescription**
- 8) **Reached age of 35**

There is an additional charge of \$20 for the screening exam.

THIS IS NOT COVERED BY ANY INSURANCE.

Please initial the appropriate line below and sign at the bottom.

_____ I **DO** want the visual field screening.
